

Magnesium

Highly-concentrated Magnesium solution.

Increases efficiently and safely the concentration of Magnesium and regulates the balance of calcium and carbonates in the reef aquarium. Free of phosphate, silicate, and nitrates or other organic material.

Formulated by a German biologist. Optimal values are 1300 mg - 1450 mg with a calcium content of 400 mg.

User Instructions : 1 x weekly 1 dosing cup (15 ml) per 300 liters. Distribute the Magnesium near the outlet of the pump.

Safety measures : Irritating to eyes. Keep out of reach of children. In case of direct contact with skin or clothes, rinse immediately.
